INDEPENDENT AUDITORS' REPORT

Board of Directors
San Miguel Consolidated Fire Protection District
Spring Valley, California

Opinion

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of San Miguel Consolidated Fire Protection District as of and for the fiscal year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of San Miguel Consolidated Fire Protection District, as of June 30, 2025, and the respective changes in financial position for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Change in Accounting Principle

As described in Notes 1 and 7, to the financial statements, as of July 1, 2024, the District adopted new accounting guidance, GASB Statement No. 101, Compensated Absences. Our opinion is not modified with respect to these matters.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of proportionate share of the net pension liability, schedule of pension contributions, schedule of changes in the District's total OPEB liability and related ratios, and schedule of OPEB contributions be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Prior-Year Comparative Information

The financial statements include partial prior-year comparative information. Such information does not include sufficient detail to constitute a presentation in accordance with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the District's financial statements for the year ended June 30, 2024, from which such partial information was derived.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued a separate report dated March 31, 2026, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Management's Discussion and Analysis (Unaudited)
For the Fiscal Year Ended June 30, 2025

Management's Discussion and Analysis (MD&A) offers readers of San Miguel Consolidated Fire Protection District's (the District) financial statements a narrative overview of the District's financial activities for the fiscal year ended June 30, 2025. This MD&A presents financial highlights, an overview of the accompanying financial statements, an analysis of net position and results of operations, a current-to-prior year analysis, a discussion on restrictions, commitments and limitations, and a discussion of significant activity involving capital assets and long-term debt. Please read in conjunction with the financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- The District's net position increased 29.47% or \$5,515,877 from \$(18,715,165) to \$(13,199,288) as a result of this year's operations.
- Total revenues from all sources increased by 3.45%, or \$1,241,660 from \$36,034,295 to \$37,275,955, from the prior year, primarily due to an increase in charges for services of \$1,375,378 and increase in property taxes of \$1,214,949.
- Total expenses for the District's operations increased by 4.95% or \$1,497,212 due to a \$1,351,610 increase in operations expense.
- The District purchased new capital assets during the year in the amount of \$2,749,269. The total depreciation expense was \$1,315,412.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts – management discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- *District-wide financial statements* provide both short-term and long-term information about the District's overall financial status.
- *Fund financial statements* focus on individual parts of the District, reporting the District's operations in more detail than the District-wide statements.
 - The *governmental funds* statements tell how basic services were financed in the short term as well as what remains for future spending.

The financial statements also include *notes* that explain some of the information in the statements and provide more detailed data. Figure A-1 shows how the various parts of this annual report are arranged and related to one another.

OVERVIEW OF THE FINANCIAL STATEMENTS (continued)

District-Wide Statements

The District-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two District-wide statements report the District's net position and how it has changed. Net position – the difference between the District's assets and deferred outflows of resources and liabilities and deferred inflows of resources – is one way to measure the District's financial health, or *position*.

- Over time, increases and decreases in the District's net position are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the overall health of the District, you need to consider additional nonfinancial factors such as changes in the District's property tax base and the condition of buildings and other facilities.
- In the District-wide financial statements, the District's activities are categorized as *Governmental Activities*. Most of the District's basic services are included here, such as fire protection, medical transport, and administration. Local property taxes finance most of these activities.

GOVERNMENTAL FUNDS FINANCIAL STATEMENTS

Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balance

Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balance provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

GOVERNMENTAL FUNDS FINANCIAL ANALYSIS

The focus of the District's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the District's financing requirements. In particular, the *unassigned fund balance* may serve as a useful measure of the government's net resources for spending at the end of the fiscal year.

As of June 30, 2025, the District reported a total fund balance of \$40,690,392. An amount of \$9,461,202 constitutes the District's *unassigned fund balance*.

OPERATIONS FUND BUDGETARY HIGHLIGHTS

The final budgeted expenditures for the District's general fund at year-end were \$2,168,546 more than actual. Budgeted revenues were less than actual revenues by \$6,021,645. Actual revenues less expenses were over budget by \$8,243,091.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

By the end of fiscal year 2025, the District had invested \$19,866,544 in capital assets, related to the purchase of equipment for use in fire protection. (More detailed information about capital assets can be found in Note 6 to the financial statements). Total depreciation expense for the year was \$1,315,412.

Net Change in Fund Balances – Governmental Funds \$ 4,472,656

Amounts reported for governmental activities in the statement of activities are different because:

Some expenses reported in the statement of activities do not require the use of current financial resources. Therefore, those expenses are not reported as expenditures in governmental funds as follows:

Change in compensated absences	(167,739)
Change in accrued interest payable	1,492
Change in right-to-use lease payable	31,068
Change in workers' compensation claims payable	(573,418)
Change in net OPEB liability	(1,269,384)
Change in net pension liability	1,197,414

Governmental funds report capital outlay as expenditures. However, in the statement of activities the cost of those capitalized assets is allocated over their estimated useful lives as depreciation expense.

Capital outlay	2,749,269
Depreciation expense	(1,315,412)
Amortization expense	(32,069)

Principal repayment of long-term debt obligations are reported as expenditures in governmental funds. However, principal repayments reduce liabilities in the statement of net position and do not result in expenses in the statement of activities.

Notes to Financial Statements

For the Fiscal Year Ended June 30, 2025

NOTE 1 – DESCRIPTION OF ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

A. Description of Organization

The San Miguel Consolidated Fire Protection District (District) was formed on July 1, 1988, under the provisions of the California Health and Safety Code, Section 14022, to provide fire protection, prevention, emergency medical services, code enforcement, and weed abatement. The District operates eight fire stations over a 54-mile service area that serves the taxpayers and residents in the communities of Bostonia, Casa de Oro, Crest, Grossmont/Mt. Helix, La Presa, Rancho San Diego, Spring Valley and the unincorporated areas of El Cajon and La Mesa of San Diego County. The District's governmental powers are exercised through a seven-member board of directors.

B. Reporting Entity

A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure the financial statements are not misleading. The primary government of the District consists of all funds, departments, and agencies that are not legally separate from the District.

Component units are legally separate organizations for which the District is financially accountable. Component units may also include organizations that are fiscally dependent on the District, in that the District approves their budget, the issuance of their debt or the levying of their taxes. In addition, component units are other legally separate organizations for which the District is not financially accountable but the nature and significance of the organization's relationship with the District is such that exclusion would cause the District's financial statements to be misleading or incomplete.

The District has identified no organizations that are required to be reported as component units.

C. Basis of Presentation, Basis of Accounting

1. Basis of Presentation

Government-Wide Financial Statements

The statement of net position and the statement of activities display information about the primary government (the District) and its component units. These statements include the financial activities of the overall government. Eliminations have been made to minimize the double-counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, other nonexchange transactions, and charges for services.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Major Governmental Funds

The District maintains the following major governmental funds:

General Fund: This fund is used to account for all financial resources of the District, except those required to be accounted for in another fund when necessary.

NOTE 1 – DESCRIPTION OF ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

C. Basis of Presentation, Basis of Accounting (continued)

1. Basis of Presentation (continued)

Major Governmental Funds (continued)

Fire Mitigation Fund: This fund is used to account for fees collected from builders in the service area that are restricted for the purchase of new capital assets when those assets are needed due to population and infrastructure growth in the service area.

2. Measurement Focus, Basis of Accounting

Government-Wide Financial Statements

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and financing from capital leases are reported as other financing sources.

3. Revenues - Exchange and Non-Exchange Transactions

Revenue from exchange transactions, where both parties exchange equal value, is recognized on an accrual basis at the time of transaction. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year. Generally, available is defined as collectible within 60 days.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, certain grants, entitlements, and donations. Revenue from property taxes is recognized in the fiscal year in which the taxes are received. Revenue from certain grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include time-based and purpose-based criteria. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

NOTE 1 – DESCRIPTION OF ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position

1. Cash and Investments

The District considers all highly liquid investments with a maturity of three months or less, when purchased, to be cash equivalents. Cash deposits are reported at carrying amount, which reasonably estimates fair value.

Investments are reported at fair value except for short-term investments, which are reported at cost, which approximates fair value. Cash deposits are reported at carrying amount, which reasonably estimates fair value. Investments in governmental investment pools are reported at fair value based on the fair value per share of the pool's underlying portfolio.

In accordance with fair value measurements, the District categorizes its assets and liabilities measured at fair value into a three-level hierarchy based on the priority of the inputs to the valuation technique used to determine fair value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used in the determination of the fair value measurement fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement.

Financial assets and liabilities recorded on the balance sheet are categorized based on the inputs to the valuation techniques as follows:

Level 1 – Inputs that reflect unadjusted quoted prices in active markets for identical investments, such as stocks, corporate and government bonds. The District has the ability to access the holding and quoted prices as of the measurement date.

Level 2 – Inputs, other than quoted prices, that are observable for the asset or liability either directly or indirectly, including inputs from markets that are not considered to be active.

Level 3 – Inputs that are unobservable. Unobservable inputs reflect the District's own assumptions about the factors market participants would use in pricing an investment, and is based on the best information available in the circumstances.

2. Lease Receivable and Deferred Inflows of Resources

The primary objective is to enhance the relevance and consistency of information about the governments' leasing activities. As a lessor, the District is required to recognize a lease receivable and a deferred inflow of resources at the commencement of the lease term, with certain exceptions for leases of assets held as investment, short-term leases, de minimis leases, and leases that transfer ownership of the underlying asset. As lessor, the leased right-to-use asset underlying the lease is not recognized. The District's lease receivable is measured at the present value of the lease payments expected to be received during the lease term. Under the lease agreement, the District may receive variable lease payments that are dependent upon the lessee's revenue. The variable payments are recorded as an inflow of resources in the period the payment is received. A deferred inflow of resources is recorded for the lease. The deferred inflow of resources is measured at the value of the lease receivable in addition to any payments received at or before the commencement of the lease term that relate to future periods. The deferred inflow of resources is amortized on a straight-line basis over the term of the lease.

Notes to Financial Statements

For the Fiscal Year Ended June 30, 2025

NOTE 1 – DESCRIPTION OF ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position (continued)

3. Capital Assets

Capital assets are stated at cost or at their estimated fair value at date of donation. It is the District's policy to capitalize assets costing over \$5,000. The provision for depreciation is computed using the straight-line method over the estimated service lives of the capital assets.

Estimated service lives for the District's classes of assets are as follows:

Description	Estimated Lives
Structures and Improvements	10-50 years
Equipment	7-20 years
Vehicles and Apparatuses	5-20 years

4. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time.

5. Compensated Absences

The District's employee benefits provide for accumulation of vacation and sick leave. Full cash payment for all unused vacation leave is available to employees upon retirement or termination. Cash payment for all unused sick leave is available up to 50% of the employee's current pay rate upon retirement or termination based on years of service at the District. In accordance with GASB No. 101, Compensated Absences, leave is recognized when it is attributable to services already rendered, the leave accumulates, and the leave is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means. Management evaluates sick leave for other District employees to determine the amount that is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means. This analysis includes assessing relevant factors such as historical information about the use, payment or forfeiture of compensated absences and the District's portion of Medicare taxes.

For the Fiscal Year Ended June 30, 2025

NOTE 1 – DESCRIPTION OF ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position (continued)

6. Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the District's California Public Employees' Retirement System (CalPERS) plans and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at market value.

The following timeframes are used for pension reporting:

Valuation Date June 30, 2023
Measurement Date June 30, 2024
Measurement Period July 1, 2023 to June 30, 2024

7. Postemployment Benefits Other Than Pensions (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District's Retiree Benefits Plan ("the Plan") and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, the Plan recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at market value, except for money market investments which are reported at cost.

The following timeframes are used for OPEB reporting:

Valuation Date June 30, 2023
Measurement Date June 30, 2024
Measurement Period July 1, 2023 to June 30, 2024

8. Net Position

Net position is classified into three components: net investment in capital assets; restricted; and unrestricted. These classifications are defined as follows:

Net investment in capital assets - This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds are not included in the calculation of net investment in capital assets. Rather, that portion of the debt is included in the same net position component as the unspent proceeds.

For the Fiscal Year Ended June 30, 2025

NOTE 1 – DESCRIPTION OF ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position (continued)

8. Net Position (continued)

Restricted - This component of net position consists of constraints placed on net position use through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position - This component of net position consists of net position that does not meet the definition of "net investment in capital assets" or "restricted". When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

9. Fund Balances

The fund balance for governmental funds is reported in classifications based on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

Non-spendable: Fund balance is reported as non-spendable when the resources cannot be spent because they are either in a non-spendable form or legally or contractually required to be maintained intact. Resources in non-spendable form include inventories and prepaid assets.

Restricted: Fund balance is reported as restricted when the constraints placed on the use of resources are either externally imposed by creditors, grantors, contributors, or laws and regulations of other governments; or imposed by law through constitutional provision or by enabling legislation.

Assigned: Resources that are constrained by the District's intent to use them for a specific purpose, but are neither restricted nor committed, are reported as assigned fund balance. Intent may be expressed by either the Board, committees (such as budget or finance), or officials to which the Board has delegated authority.

Unassigned: Unassigned fund balance represents fund balance that has not been restricted, committed, or assigned and may be utilized by the District for any purpose. When expenditures are incurred, and both restricted and unrestricted resources are available, it is the District's policy to use restricted resources first, then unrestricted resources in the order of committed, assigned, and then unassigned, as they are needed.

E. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reported period. Actual results could differ from those estimates.

F. New Pronouncements – Governmental Accounting Standards Board (GASB)

During the fiscal year ended June 30, 2025, the District has implemented new GASB pronouncements as follows:

GASB Statement No. 101 – Compensated Absences

This GASB Statement amends the definition of a compensated absence to encompass the various types of benefits offered by governmental employees and establishes a unified model for accounting and reporting. The statement also revises the related financial statement disclosure requirements, including eliminating certain disclosures previously required that GASB research found did not provide essential information to financial statement users. The GASB statement applies to all units of state and local governments. The District adopted the Statement as of July 1, 2024. See Note 7 for the effect of this Statement.

G. Property Taxes

The San Diego County Assessor’s Office assesses all real and personal property within the County each year. The San Diego County Tax Collector’s Office bills and collects the District’s share of property taxes and voter-approved taxes. The San Diego County Auditor-Controller’s Office remits current property tax collections to the District throughout the year. Property tax in California is levied in accordance with Article XIII A of the State Constitution at one percent (1%) of countywide assessed valuations.

Property taxes receivable at year-end are related to property taxes collected by San Diego County, which have not been credited to the District's cash balance as of June 30. The property tax calendar is as follows:

Lien date	March 1
Levy date	July 1
Due dates	November 1 and March 1
Collection dates	December 10 and November 10

Property taxes levied are recorded as revenue when received in the fiscal year of levy. This is due to the adoption of the Teeter Plan, an alternative property tax distribution method used by the District and San Diego County. The Teeter Plan authorizes the County Auditor-Controller to allocate 100% of the secured property tax billed but not yet received or paid to the District. San Diego County remits tax proceeds to the District in installments during the fiscal year.

NOTE 2 – CASH AND INVESTMENTS

Cash and investments at June 30, 2025, were categorized on the statement of net position as follows:

<u>Description</u>	<u>Balance</u>
Cash and investments	\$ 38,768,221
Restricted – cash and investments	<u>992,468</u>
Total cash and investments	<u>\$ 39,760,689</u>

Cash and investments at June 30, 2025, consisted of the following:

<u>Description</u>	<u>Balance</u>
Cash on hand	\$ 100
Demand deposits held with financial institutions	5,087,850
California CLASS	16,349,485
San Diego County Pooled Investment Fund (SDCPIF)	<u>18,323,254</u>
Total cash and investments	<u>\$ 39,760,689</u>

Demand Deposits with Financial Institutions

At June 30, 2025, the carrying amount of the District's demand deposits was \$5,087,850 and the financial institution's balance was \$2,753,023. The net difference represents outstanding checks, deposits-in-transit and/or other reconciling items between the financial institution's balance and the District's balance for each year.

Custodial Credit Risk – Deposits

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a policy for custodial credit risk for deposits. Cash balances held in banks are insured up to \$250,000 by the Federal Depository Insurance Corporation (FDIC) and are collateralized by the respective financial institutions. In addition, the *California Government Code* requires that a financial institution secure deposits made by State or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under State law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110 percent of the total amount deposited by the public agencies. California law also allows financial institutions to secure public deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured public deposits and letters of credit issued by the Federal Home Loan Bank of San Francisco having a value of 105 percent of the secured deposits.

NOTE 2 – CASH AND INVESTMENTS (continued)

California Cooperative Liquid Assets Securities System (California CLASS)

The California Cooperative Liquid Assets Securities System (California CLASS) is a joint exercise of power entity authorized under Section 6509.7, California Government Code. California CLASS is a pooled investment option that was created via a joint exercise of powers agreement by and among California public agencies. California CLASS provides California public agencies with a convenient method for investing in high-quality, short- to medium-term securities carefully selected to optimize interest earnings while prioritizing safety and liquidity. The California CLASS Prime and Enhanced Cash funds offer public agencies the opportunity to strengthen and diversify their cash management programs in accordance with the safety, liquidity, and yield hierarchy that governs the investment of public funds.

The management of California CLASS is under the direction of a Board of Trustees comprised of eligible Participants of the program. The Board of Trustees has appointed Public Trust Advisors, LLC to serve as the Investment Advisor and Administrator of the program and has appointed U.S. Bank as the Custodian.

The District is a voluntary participant in California CLASS. The fair value of the District's investment in this pool is reported at an amount based upon the District's pro-rata share of the fair value provided by California CLASS for the entire California CLASS portfolio (in relation to the amortized cost of the of that portfolio). The balance available for withdrawal is based on the accounting records maintained by California CLASS. California CLASS is not categorized under the fair value hierarchy established by GAAP as it is held at an amortized cost basis. The California Class Prime and Enhanced Cash funds receive a credit rating of AAAM (S&P Global Ratings) and AAAf/S1 (FitchRatings), respectively. For financial reporting purposes, the District considers California CLASS a cash equivalent due to its highly liquid nature and dollar-in dollar-out amortized cost methodology. As of June 30, 2025, the District held \$16,349,485 in California CLASS.

San Diego County Treasury Investment Pool (SDCTIP)

The District is a voluntary participant in the San Diego County Treasury Investment Pool (SDCTIP) pursuant to Government Code Section 53694. The cash flow needs of participants are monitored daily to ensure that sufficient liquidity is maintained to meet the needs of those participants. At the time deposits are made, the San Diego County Treasurer may require the depositing entity to provide annual cash flow projections or an anticipated withdrawal schedule for deposits in excess of \$1 million. Projections are performed no less than semi-annually. In accordance with Government Code Section 27136, all request for withdrawal of funds for the purpose of investing or depositing the funds elsewhere shall be evaluated to ensure the proposed withdrawal will not adversely affect the principal deposits of the other participants. Pool detail may be obtained from the Treasurer-Tax Collector – San Diego Administration Center – 1600 Pacific Hwy, Room 162 – San Diego, CA 92101 or the Treasurer and Tax Collector's office website at www.sdttc.com. As of June 30, 2025, the District had \$18,323,254 in the SDCTIP.

Restricted assets and restricted net position as of June 30, 2025, were received from mitigation fees for capital expenditures.

NOTE 4 – LEASE RECEIVABLE AND DEFERRED INFLOWS OF RESOURCES – LEASES

Changes in the District’s lease receivable is as follows:

<u>Description</u>	<u>July 1, 2024</u>	<u>Additions</u>	<u>Deletions</u>	<u>June 30, 2025</u>
Fleet service and maintenance facility	<u>\$ 53,420</u>	<u>\$ -</u>	<u>\$ (53,420)</u>	<u>\$ -</u>

The District is reporting a total lease receivable of \$0 and a total related deferred inflows of resources of \$52,370 for the year ending June 30, 2025. Also, the District is reporting total lease revenue of \$53,420 and interest revenue of \$580 related to lease payments received.

The leases held by the District do not have an implicit rate of return, therefore the District used their incremental borrowing rate of 2% to discount the lease revenue to the net present value. In some cases the leases contain termination clauses. In these cases the clause requires the lessee or lessor to show cause to terminate the lease. Also, certain leasing-types are considered “volatile leases.” Those volatile leases were not extended past their initial lease period for financial statement recognition due to their volatility.

The Included Leases are summarized as follows:

Fleet Service and Maintenance Facility

On July 1, 2022, the District renewed a 36 month lease as lessor for the use of the fleet maintenance facility and use of equipment. An initial lease receivable was recorded in the amount of \$157,109. As of June 30, 2025, the value of the lease receivable was \$0. The lease is required to make monthly fixed payments of \$4,500. The lease has an interest rate of 2%. The value of the deferred inflow of resource was \$0 as of June 30, 2025. The District recognized lease revenue of \$53,420 and interest revenue of \$580 during the fiscal year. The District has a termination period of 90 days as of the lease commitment.

Changes in the District’s deferred inflows of resources related to leases are as follows:

<u>Description</u>	<u>Balance July 1, 2024</u>	<u>Additions</u>	<u>Deletions</u>	<u>Balance June 30, 2025</u>

NOTE 5 – DEPOSITS WITH PUBLIC AGENCIES SELF INSURANCE SYSTEM (PASIS)

The District is one of seven Members in the Public Agency Self-Insurance System (PASIS). PASIS is a joint-powers authority which was established in 1977 for the purpose of operating and maintaining a cooperative program of self-insurance and risk management for workers’ compensation for its Members.

PASIS’s purpose is to provide for the collection of workers’ compensation claims data, purchase claims examiner services, general counsel services and excess insurance coverage. Members are responsible for paying their own claims and related expenses for workers’ compensation related injuries. PASIS requires active Members to maintain a minimum base funding of 125% of a Members’ self-insured retention plus a 15% increase for Members with annual payroll in excess of \$1.8 million. The deductible for self-insured retention selected by the District is \$300,000. PASIS carries excess insurance through a joint powers authority to cover amounts over the self-insured retention.

As of June 30, 2025, the District had \$615,931 on deposit with PASIS. Further information in regard to PASIS is as follows:

Bond Provisions

The obligations of the District under the bonds, including the obligation to make all payments of interest and principal when due, are obligations of the District imposed by law and are absolute and unconditional, without any right of set-off or counterclaim. The bonds do not constitute an obligation of the District for which the District is obligated to levy or pledge any form of taxation. Neither the bonds nor the obligations of the District to make payments on the bonds constitute an indebtedness of the District, the State of California, or any of its political subdivisions in contravention of any constitutional or statutory debt limitation or restriction. For the purpose of paying the principal of and interest on the bonds, the District’s council has covenanted under the trust agreement, to take such actions annually as are necessary or appropriate to cause the debt service on the bonds due in any fiscal year to be included in the budget for such fiscal year and to make the necessary appropriations therefor from any legally available funds to ensure that sufficient sums are available to pay the annual principal of and interest on the bonds as the same become due.

NOTE 10 – WORKERS’ COMPENSATION CLAIMS PAYABLE

The District is self-insured for workers’ compensation and has effectively managed this risk of loss through a combination of insurance, with deductibles, self-insurance, and employee education and prevention programs. Expenditures and claims are recognized when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. In determining claims, events that might create claims, but for which none have been reported, are considered. Excess insurance is purchased above the self-insured retention through PASIS. As of June 30, 2025, the liability for workers’ compensation claims payable was estimated at \$4,226,323.

The following balances on the statement of net position will be addressed in this footnote as follows:

<u>Description</u>	<u>Amount</u>
OPEB related deferred outflows of resources	\$ 5,671,669
Net other post-employment benefits liability	\$ 25,457,002
OPEB related deferred inflows of resources	\$ 4,097,708

A. General Information about the OPEB Plan

Plan Description and Benefits Provided

The District provides healthcare and life insurance benefits for retirees and their dependents through a cost-sharing multi-employer defined benefit plan. Active employees are offered a choice of medical plans through the CalPERS Health Program under the Public Employees' Medical and Hospital Care Act (PEMHCA). The District offers the same medical plans to eligible retirees except once a retiree is eligible for Medicare, the retiree must join a Medicare HMO or Supplement Plan with Medicare being the primary payer.

The District contributes to the retiree health coverage of eligible retirees and eligible surviving spouses. Effective in 2012, the District's financial obligation is to pay up to a maximum amount which varies based on the retiree's elected coverage category (single, two-party, and family). The maximum is based on the 2011 Kaiser Southern California HMO Basic (non-Medicare) rate plus 50% of any future premium increases. The maximum is subject to a minimum amount which is the CalPERS minimum required employer contribution for the retiree. Employees hired after November 1, 2011 will only receive a District contribution equal to the CalPERS minimum required employer contribution. The CalPERS minimum required employer contribution is \$143 per month in 2025 and is scheduled to increase each year based on medical inflation. Prior to 2012, the District's financial obligation was to pay for the retiree and eligible dependent coverage up to a monthly maximum which is equal to the Kaiser Basic (non-Medicare) Family premium.

An employee is eligible for the District contribution provided they are vested in their CalPERS pension benefit and commence payment of their pension benefit within 120 days of retirement with the District. Vesting requires at least 5 years of CalPERS eligible service. The surviving spouse of an eligible retiree who elected spouse coverage under CalPERS is eligible for the employer contribution upon the death of the retiree.

Funding Policy

The contribution requirements of plan members and the District are established and may be amended by the District and/or the District's Board of Directors. Currently, contributions are not required from plan members. The District has been typically funding this OPEB plan on a pay-as-you-go basis; however, recently contributions have been made to an OPEB Trust.

Contributions

Benefit provisions and contribution requirements are established and may be amended through agreements and memorandums of understanding between the District and its employees. The plan does not require employee contributions. Administrative costs of this plan are financed by the District. For fiscal year ended June 30, 2025, the measurement period, the District's contributions totaled \$1,276,924.

B. Total OPEB Liability

The District's total OPEB liability of \$25,457,002 was measured as of June 30, 2024 and was determined by an actuarial valuation as of that date.

Actuarial assumptions and other inputs

The total OPEB liability in the June 30, 2024 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Discount Rate	3.93%
Inflation	2.50%
Salary Increases	3.00% per annum, in aggregate
Investment Rate of Return	3.65%
Mortality Rate	CalPERS Membership Data
Pre-Retirement Turnover	CalPERS Membership Data
Healthcare Trend Rate	5%

Discount Rate

The discount rate used to measure the total OPEB liability was 3.54 percent. The projection of cash flows used to determine the discount rate assumed that contributions would be sufficient to fully fund the obligation over a period not to exceed 30 years. The Bond Buyer 20 Bond Index was used.

A. General Information about the Pension Plans (continued)

Plan Description

The District contributes to the California Public Employees' Retirement System (CalPERS), a cost-sharing multiple-employer defined benefit pension plan. CalPERS acts as a common investment and administrative agent for participating public entities within the State of California. A full description of the pension plan, benefit provisions, assumptions (for funding, but not accounting purposes), and membership information are listed in the June 30, 2024 Annual Actuarial Valuation Reports. This report and CalPERS' audited financial statements are publicly available reports that can be obtained at CalPERS' website under Forms and Publications.

At June 30, 2024, the following members were covered by the benefit terms:

Plan Members	Miscellaneous and Safety Plans		Total
	Classic Tier 1	PEPRA Tier 2	
Active members	30	57	87
Transferred and terminated members	81	46	127
Retired members and beneficiaries	190	2	192
Total plan members	301	105	406

All qualified permanent and probationary employees are eligible to participate in the District's cost-sharing multiple-employer defined benefit pension plans administered by the California Public Employees' Retirement System (CalPERS). Benefit provisions under the Plans are established by state statute and District resolution. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions, and membership information that can be found on the CalPERS website.

Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments, and death benefits to Plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full-time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for nonindustrial disability benefits after five years of service. The death benefit is one of the following the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost-of-living adjustments for each Plan are applied as specified by the Public Employees' Retirement Law.

A. General Information about the Pension Plans (continued)

Contributions

Section 20814(c) of the California Public Employees’ Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for both Plans are determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

Contributions for the year ended June 30, 2025, were as follows:

Contribution Type	Miscellaneous and Safety Plans		
	Classic Tier 1	PEPRA Tier 2	Total
Contributions – Miscellaneous Plans	\$ 322,398	\$ 53,766	\$ 376,164

Proportionate Share of Net Pension Liability and Pension Expense

The District’s net pension liability for each Plan is measured as the proportionate share of the net pension liability. The net pension liability of each of the Plans is measured as of June 30, 2024, and the total pension liability for each Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2023, rolled forward to June 30, 2024, using standard update procedures. The District’s proportionate share of the net pension liability was based on a projection of the District’s long-term share of contributions to the pension plans relative to the projected contributions of all participating employers, actuarially determined.

The following table shows the District’s proportionate share of the risk pool collective net pension liability over the measurement period for the Miscellaneous and Safety Plans for the fiscal year ended June 30, 2024:

Plan Type and Balance Descriptions	Plan Total Pension Liability	Plan Fiduciary Net Position	Change in Plan Net Pension Liability

B. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions (continued)

The District’s proportionate share percentage of the net pension liability for the June 30, 2024, measurement date was as follows:

	<u>Percentage Share of Risk Pool</u>		<u>Change Increase/ (Decrease)</u>
	<u>Fiscal Year Ending June 30, 2025</u>	<u>Fiscal Year Ending June 30, 2024</u>	
<u>CalPERS – Safety and Miscellaneous</u>

Percentage of Risk Pool Net Pension Liability	<u>0.33385%</u>	<u>0.20679%</u>	<u>0.12706%</u>

For the year ended June 30, 2025, the District recognized pension expense of \$2,354,378. At June 30, 2025, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

<u>Account Description</u>	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Pension contributions made after the measurement date	\$ 3,551,791	\$ -
Difference between actual and proportionate share of employer contributions	4,346,491	(3,095,672)
Adjustment due to differences in proportions	2,733,959	(7,501,124)
Differences between expected and actual experience	1,864,604	(62,500)

Changes in assumptions	561,596	-
Total Deferred Outflows/(Inflows) of Resources	<u>\$ 14,184,002</u>	<u>\$ (10,659,296)</u>

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year. The deferred outflows/(inflows) of resources related to the difference between projected and actual earnings on pension plan investments will be amortized over a closed five-year period. The deferred outflows/(inflows) of resources related to the net change in proportionate share of net pension liability, changes of assumptions, and differences between expected and actual experience in the measurement of the total pension liability will be amortized over the Expected Average Remaining Service Life (EARSL) of all members that are provided benefits (active, inactive, and retirees) as of the beginning of the measurement period. The EARSL for the measurement period is 3.8 years.

Actuarial Methods and Assumptions Used to Determine Total Pension Liability

For the measurement period ending June 30, 2024 (the measurement date), the total pension liability was determined by rolling forward the June 30, 2023, total pension liability. The June 30, 2024, total pension liability was based on the following actuarial methods and assumptions:

Actuarial Cost Method	Entry Age Normal in accordance with the requirement of GASB Statement No. 68
Actuarial Assumptions:	
Discount Rate	6.90%
Inflation	2.30%
Salary Increases	Varies by Entry Age and Service
Investment Rate of Return	7.00% Net of Pension Plan Investment and Administrative Expenses; includes Inflation
Mortality Rate Table	Derived using CalPERS' Membership Data for all Funds. The mortality table used was developed based on CalPERS' specific data. The table includes 20 years of mortality improvements using Society of Actuaries Scale BB.
Post Retirement Benefit Increase	Contract COLA up to 2.30% until Purchasing Power Protection Allowance Floor on Purchasing Power applies, 2.30% thereafter

Long-term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

The table below reflects long-term expected real rate of return by asset class.

<u>Investment Type¹</u>	<u>New Strategic Allocation</u>	<u>Real Return^{1,2}</u>

B. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions (continued)

Discount Rate

The discount rate used to measure the total pension liability was 6.90%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Subsequent Events

There were no subsequent events that would materially affect the results in this disclosure.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability/(asset) of the Plan as of the measurement date, calculated using the discount rate of 6.90%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (5.90%) or 1 percentage-point higher (7.90%) than the current rate:

Plan Type	Plan's Net Pension Liability/(Asset)		
	Discount Rate - 1% 5.90%	Current Discount Rate 6.90%	Discount Rate + 1% 7.90%

Fire Agencies Insurance Risk Authority (FAIRA)

The District entered into a JPA, known as the Fire Agencies Insurance Risk Authority (FAIRA), a self-insurance plan for general liability insurance. Each member district pays a premium commensurate with the level of coverage requested and shares surpluses and deficits proportionate to their participation in the FAIRA. The JPA is a separate entity which is independently audited. Condensed financial and other information available for the FAIRA as of June 30, 2024 is as follows:

NOTE 16 – DEFERRED COMPENSATION SAVINGS PLAN

For the benefit of its employees, the District participates in a 457 Deferred Compensation Program. The purpose of this Program is to provide deferred compensation for public employees that elect to participate in the Program. Generally, eligible employees may defer receipt of a portion of their salary until termination, retirement, death or unforeseeable emergency. Until the funds are paid or otherwise made available to the employee, the employee is not obligated to report the deferred salary for income tax purposes.

Federal law requires deferred compensation assets to be held in trust for the exclusive benefit of the participants. Accordingly, the District is in compliance with this legislation. Therefore, these assets are not the legal property of the District and are not subject to claims of the District's general creditors.

The District has implemented GASB Statement No. 32, *Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans*. Since the District has little administrative involvement and does not perform the investing function for this plan, the assets and related liabilities are not shown on the statement of net position.

NOTE 17 – COMMITMENTS AND CONTINGENCIES

Excluded Leases – Short-Term Leases and De Minimis Leases

The District does not recognize a lease receivable and a deferred inflow of resources for short-term leases. Short-term leases are certain leases that have a maximum possible term under the lease contract of 12-months (or less), including any options to extend, regardless of their probability of being exercised.

Also, *de minimis* lessor or lessee leases are certain leases (i.e., room rental, copiers, printers, postage machines) that regardless of their lease contract period are *de minimis* with regards to their aggregate total dollar amount to the financial statements as a whole.

Grant Awards

Grant funds received by the District are subject to audit by the grantor agencies. Such audit could lead to requests for reimbursements to the grantor agencies for expenditures disallowed under terms of the grant. Management of the District believes that such disallowances, if any, would not be significant.

Litigation

In the ordinary course of operations, the District is subject to claims and litigation from outside parties. After consultation with legal counsel, the District believes the ultimate outcome of such matters, if any, will not materially affect its financial condition.

NOTE 18 – SUBSEQUENT EVENTS

The District has evaluated subsequent events through March 31, 2026, the date which the financial statements were available to be issued.

Other Independent Auditors' Report

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors
San Miguel Consolidated Fire Protection District
Spring Valley, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of San Miguel Consolidated Fire Protection District as of and for the fiscal year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise San Miguel Consolidated Fire Protection District's basic financial statements, and have issued our report thereon dated March 31, 2026.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered San Miguel Consolidated Fire Protection District's internal control over financial reporting (internal control) as a basis for designing the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the San Miguel Consolidated Fire Protection District's internal control. Accordingly, we do not express an opinion on the effectiveness of the San Miguel Consolidated Fire Protection District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether San Miguel Consolidated Fire Protection District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
